Data Sheet TouchControl 5

TouchControl 5

Touch Screen • Flexible Screen Layout • Pushable Rotary Knob • Dante® AoIP I/O • 32 Channels • Speaker Calibration • SPL Fader • PPM/TP • Multichannel • Immersive • Loudness • LRA • Premium Metering • Monitor Control • Bass Management

TouchControl 5 is a compact AoIP (Audio over IP) based monitor controller, using the monitor control engine of the well-known SurroundControl. It supports the AoIP standards Dante® and AES67 and can be powered over ethernet. It features instant control over a high channel

count: up to 32 audio channels can be controlled with one single knob. Beside others, it provides a high-quality microphone input, speaker output, headphone output and features e. g. mute/solo, metering, SPL measurement and talkback.

Graphical User Interface

The TouchControl 5's graphical user interface is controlled simply by the touch of your finger and the pushable rotary knob. The integrated instruments can be scaled, randomly positioned and combined for optimum utilization of the available screen space.

With its IP address and the comprehensive Web App, TouchControl 5 can be adapted to your individual needs within the Dante® AoIP network.

The Device

Hardware

- 5" capacitive touch screen 16:9 TFT (1280 x 720 pixel) with multitouch functionality
- 32-channel audio over IP interface for Dante[®] audio networks (RJ-45 ethernet)
- Power supply via ethernet connection (PoE power over ethernet, IEEE802.3af compliant)
- Integrated Microphone for SPL measurement & talkback
- Studio-grade 48 V phantom powered high-quality microphone input (XLR)
- Powerful headphone output e. g. for monitoring a userdefined downmix (6.3 mm Stereo jack)
- Analog 2-channel stereo loudspeaker output (Line Out -3.5 mm Stereo jack)
- Control via touch screen and pushable rotary knob 1 3
- Freely scalable and positionable applications and instruments
- Up to 31 presets selectable

Software

- Device configuration via IP address and Web App within the Dante® network (web-based interface)
- Toolbox with simple TruePeak meter and up to four on-screen faders (slider) for up to 32 channels, Talkback application
- Support for Stereo, Surround, Immersive and Multichannel formats for up to 32 channels incl. 5.1 and 7.1.4 formats
- Loudness & SPL functions acc. to all common standards and Loudness Range instrument (LRA)
- Comprehensive functions for Monitor Control (like Solo, Cut, Phase, DIM, Mute) and loudspeaker level calibration, SPL measurement, Bass Management and up to 4 sources and 4 destinations (loudspeaker sets)
- Premium Metering with Multiformat-PPM and TP meter incl. comprehensive scales and Moving Coil needle instruments

Essential Features

TouchControl 5 is equipped with a comprehensive software package. Beside the control functions, the software provides various applications and instruments that can be used individually depending on the area of application. Core of the system is the pushable rotary knob and the Monitoring application, which you can use to calibrate, control and monitor your monitoring system. With the Metering application, which can be positioned up to four times, you can carry out extensive measurement tasks. And with the Leveling application, which can also be used four times, you can control the level of individual formats or channel groups.

Not forgetting the Talkbalk application, which can be used to address any node in the audio network via the built-in or an external microphone.

Monitor Control

This application includes downmix, DSP-supported speaker calibration (with internal or external microphone), SPL display, selection of up to 4 sources and up to 4 speaker sets, solo, cut, phase, mono, dim, mute and test tone generator. The SPL display (bar graph and/or numerical) shows the sound pressure level measured live in your room.

The downmix instrument outputs surround or immersive mixes in stereo and mono to speakers, headphones or any Dante® channel. Each speaker can be muted or soloed or its phase can be rotated.

Leveling

This application is used for independent control (leveling) of individual channels or channel groups with up to 4 faders and simple TP meters, which can be combined with the rotary knob for relative level control of several channel groups.

Loudspeaker Level Calibration

The speakers in the setup can be calibrated with regards to level, delay and EQ. The support for measurement microphones, the built-in test tone generator and the live input SPL meter form the tool combination for calibrating the speaker levels.

Loudspeaker DSP section

Each speaker has a DSP section for ultimate control. Delay, gain and phase can be set individually, and a 4-band EQ is available for each speaker in each setup.

Talkback

This application uses the built-in or an external microphone as an intercom microphone to address each node in the audio network.

Bass Management

Up to two LFE channels with adjustable crossover frequencies can be adapted to the requirements with the bass management. Full-range speakers and smaller speakers can be finely tuned to each other and operated in the same system. HP filters for bass-controlled speakers, all-pass filters for other speakers and an additional SUB output channel for formats without LFE are also available.

Metering

This application provides the familiar RTW Premium metering functions and instruments:

Multiformat PPM, TP meter, Moving Coil needle instruments, loudness measurement and calculation, loudness range display and SPL display and SPL sum value calculation. Up to 4 instances are possible.

>

Essential Features (continued)

Web-based Interface

The TouchControl 5 is a network-based device. It is therefore also set up via the network, using the IP address of the device and a standard web browser in the same Dante® AoIP network. With the user interface (WebApp) displayed in the browser, you

can make the general settings, create and manage up to 31 of your own presets, create your own screen views and much more. You can also control access to the device and restrict operation to certain functions to prevent unwanted use.

Extensive Routing

The routing matrix is used to determine the audio channels to be used as inputs and outputs in the preset. The 32 Dante® channels assigned in the Dante Controller™ and the physical inputs and outputs offer many possibilities. For example, the same channels can be used for monitoring and metering. Or they can be split up so that metering is independent of monitoring.

COLUMN 7714 - Number | Column 7714 - Number

Own Display Views

TouchControl 5 allows you to design your own displays views for the selected applications. The size, ratio and positioning can be defined for each instrument. Several instruments can also be rotated to adapt them to your own requirements. Buttons can be placed anywhere on the screen, whereby the buttons in the sidebar are available on all display views of the preset.

Dimensions

TouchControl 5 Desk-top Unit (320517ND)

1 | Rear view | dimensions in mm (inch)

2 | Front view/top view | dimensions in mm (inch)

3 | Side view | dimensions in mm (inch)

Connections

Connectors

NOTE - The power supply of the TouchControl 5 is done via the network connection and the Dante[®] AoIP network without any additional cable, if this network has the Power over Ethernet functionality (PoE - IEEE 802.3af-compliant)

If your switch does not provide Power Over Ethernet, an IEEE 802.3af-compliant ethernet power injector such as the RTW 14554-xx is required for power supply 2.

Specifications

System

General

Power over Ethernet (PoE - IEEE 802.3af-Power requirements:

compliant)

Power consumption:

12 W maximum

Display:

5" capacitive touch display 16:9 wit multitouch

funtion (1280 x 720 pixel)

Connectors:

1 x RJ-45: LAN/Ethernet built-in socket NE8FD type for Dante® audio over IP and power supply (PoE - IEEE 802.3af-compliant) 1 x 3-pin XLR-F (microphone input, switchable phantom powered 48 V - Mic), 3 kOhm 1 x 1/4 inch Stereo jack (6.3 mm headphone

output - Phones) $1 \times 3,5$ mm Stereio jack (analog loudspeaker

output - Line Out)

Dimensions (W x H x D):

143 x 46.5 x 155.4 mm

Weight: Operating temperature: approx. 830 g +5° to +35° C

Functions (Availability depends on selected application)

- · Operation with touch sensitive display and pushable rotary knob
- Instruments and controls can freely be scaled and positioned
- Monitor Control and SPL measurement for up

to 4 sources/destinations

- Integrated and calibrated microphone for SPL measurment and talkback
- Studio-grade 48 V phantom powered highquality microphone input (XLR)
- Powerful 1/4 inch Headphones output with the option of monitoring a user-defined downmix (6.3 mm Stereo jack)
- Analog 3.5mm speaker output with the option of monitoring a user-defined downmix (3.5 mm Stereo jack)
- Multiformat PPM and TP meter for level metering of up to 32 channels with in different configurations (Mono, Stereo, Surround, Immersive or Multichannel)
- Multiformat PPM and TP meter
- Loudness-Meter: ITU-R BS.1770-4/1771, EBU R128, ATSC A/85, ARIB, OP-59, AGCOM, CALM Act, LEQ(M), TASA, SAWA, Custom mode
- Loudness Test Time Control
- Loudness Range instrument (LRA)
- SPL meter
- Test signal generator
- Moving Coil (BR, VU, Loudness, BBC mode)

- · Spot Correlator in the Stereo bargraph dis-
- Numerical displays
- Up to 4 on-screen fader and simple TP Meter for the simultaneous control of up to 32 Dante® input channels
- Bass Management for up to 2 LFE channels
- · Level calibration for each individual loudspeaker in each of the outputs
- Immersive-Setups (5.1.2, 5.1.4, 5.1.6, 7.1.2, 7.1.4, 7.1.6, 9.1.2, 9.1.4, 9.1.6, 22.2)
- Up to 32 presets selectable (31 user-definable, 1 write-protected with standard settings)

32 Dante® audio over IP inputs (network chan-

 Configuration of the device via IP address and Web App in the Dante® network

Application Leveling

Used for independent control (leveling) of individual channels or channel groups with up to 4 on-screen sliders (faders), which can be combined with the rotary knob for relative level control of several channel groups. Up to 4 instances are possible.

Functions:

- Digital fader for the level control of up to 32 channels in different formats
- Up to 4 faders simultaneously possible
- Change of the different levels of selected faders by the use of the rotary knob
- Simple TruePeak meter with fixed labeling and scale
- Spot Correlator in Stereo mode

Digital fader

Fader range: **0 dB *)**; adjustable from -infinity to +6 dB in

steps of 1 dB

TP-Meter

- Display: Up to 4 TP meter, coupled with faders

- Scale: TP60: +3..-60 dB

*) Default values are in bold.

Application Talkback

Provides the option of using the built-in or an external microphone as an intercom microphone that can address any node in the audio network.

Talkback

Function:

- Instrument for using the internal or external microphone for Talkback
- Adjustment via input/output routing
- With enabled Monitoring application DIM is active

Hold function. Talkback source: as switch (hold) or push button (momentary) Internal microphone (MIC), external microphone (XLR) or any Dante® audio channel

Internal source:

- Internal Mic Gain:

0 dB; adjustable in the range from 0 to +40 dB

External source:

- Talkback level trim:

0 dB; adjustable in the range from −12 to +12 dB in steps of 0.5 dB (inputs of other applications inside the preset can be influenced)

- High-Pass-Filter:

Off or On 120 Hz; adjustable in the range from 80 to 250

- High-Pass-Frequenz:

- Phantom Power: Off or On

- XLR-Gain: 0 dB; adjustable in the range from −8 to 60 dB

in steps of 0.5 dB

Hz in steps of 1 Hz

in steps of 0.5 dB

Application Metering

Provides the familiar RTW Premium metering functions (multi-format PPM and TP meter, moving coil) and the functions for loudness calculation, loudness range display, SPL display and sum SPL value calculation. Up to 4 instances are possible.

Application Monitoring

Full Mono to extensive Surround and Immersive control (Monitor Control), bass management, speaker level calibration and volume level monitoring with numerical display, SPL value calculation or direct measurement with internal microphone.

General

Functions:

- Instrument for monitoring Mono, Stereo, Surround and Immersive signals
- Arrangement of up to 32 loudspeakers
- Multifunctional rotary knob for controlling the volume level and other functions
- Definable loudspeaker functions Solo, Cut, Phase
- DIM and MUTE function
- · Numerical display
- Calculation of the SPL value of the electrical signal
- Measured SPL value via internal or external microphone
- 4 switchable inputs A/B/C/D (via one button or via separate buttons), can be labeled individually
- 4 switchable loudspeaker sets A/B/C/D (via one button or via separate buttons), can be labeled individually
- Downmix instrument (coupled with A-input)
- B/C/D outputs same as A or Stereo or Off
- Instrument for switching between loudspeakers and headphones (Phones output can be routed to the outputs or a Dante® connection)
- Bass management to operate full range and small speakers in the same system, support of two LFE channels
- LF-Boost function switchable
- Surr-Att function switchable
- HP filter for all bass managed speakers and All-pass filter for others
- For formats without an LFE, an additional SUB output channel is added

Display:

- Button with toggle function for the selection of the loudspeaker modes Solo, Cut or Phase
- Stylized circular speaker representation acc. to the selected audio format (ITU circle)
- Control of the selected speaker function by single or multiple tapping of the corresponding speaker symbols (toggle or multiple)
- Color indication of the loudspeaker state (green: active, red: inactive, outline: phase inverted)
- Switchable SPL or Loudness display
- Toggle buttons for input A/B/C/D, output A/B/C/D, Mono, Dim, Mute, LF-Boost, Surr-Att, Phones, Downmix, Reference
- Listening volume display

Speakers

Modes:

Stereo; Mono, Stereo, Surround, Immersive selectable

Surround formats:

5.1; LCR, LCM, 4.0, 5.0, 5.1, 6.0, 6.1, 7.0, 7.1 selectable

- Immersive formats:

5.1.4; 5.1.2, 5.1.4, 5.1.6, 7.1.2, 7.1.4, 7.1.6, 9.1.2, 9.1.4, 9.1.6, 22.2 selectable

Inputs A/B/C/D:

-Delay:

0 ms; adjustable in the range from 0 to 200 ms in steps of 0.1 ms

Outputs A/B/C/D:

-Gain (Trim):

0 dBFS; adjustable in the range from −20 to +6

dBFS in steps of 0.5 dBFS

LF-Boost:

On or **Off**, increases the level of the LF output

by +10 dB

Sur att.:

On or **Off**, decreases the level of the surround channels by -3 dB

Individual Loudspeaker Settings

The loudspeakers available in the network can be assigned to four sets (A/B/C/D) and individually adjusted for the respective listening situation.

lame: max. 3 characters

Type: full range or non-full range

Gain: **0 dB**; adjustable in the range from -24 to +12

dB in steps of 0.5 dB

Delay: **0 ms**; adjustable in the range from 0 to 200 ms

in steps of 0.02 ms (units can be ms, m, ft)

+ or -

Equalizer (EQ)

Polarity:

Band 1

- Туре:

Peak; Peak, Low Shelf, High Shelf, Low Pass, Band Pass, High Pass, All Pass 2P, All Pass 4P,

Notch; selectable

- Frequency: **125 Hz**; adjustable in the range from 20 Hz to

20 kHz

- Bandwidth: **0.7**; adjustable in the range from 0 to 10 in

steps of 0.1

- Gain: **0 dB**; adjustable in the range from -18 to +18

dB in steps of 0.1 dB

Band 2

- Type:

Peak; Peak, Low Shelf, High Shelf, Low Pass, Band Pass, High Pass, All Pass 2P, All Pass 4P, Notch; selectable

- Frequency: **800 Hz**; adjustable in the range from 20 Hz to 20 kHz

- Bandwidth: **0.7**; adjustable in the range from 0 to 10 in steps of 0.1

- Gain: **0 dB**; adjustable in the range from -18 to +18 dB in steps of 0.1 dB

Band 3

- Type: Peak; Peak, Low Shelf, High Shelf, Low Pass,

Band Pass, High Pass, All Pass 2P, All Pass 4P, Notch: selectable

- Frequency: **2.40 kHz**; adjustable in the range from 20 Hz to

- Bandwidth: **0.7**; adjustable in the range from 0 to 10 in steps of 0.1

- Gain: **0 dB**; adjustable in the range from -18 to +18

dB in steps of 0.1 dB

Optional Ethernet Power Injector 14554-xx

This IEEE 802.3af-compliant power injector is required when the Dante® AoIP network provides insufficient or no power over Ethernet (PoE).

Manufacturer: Phihong Technology Co., Ltd., No. 568, Fusing

3rd RD., Gueishan District, Taoyuan City, Taiwan
Model: POE15M-1AFE - Single Port Power over Ether-

net (PSE), Gigabit-compatible

Standard: IEEE 802.3af

Input: 100 - 240 V AC, 800 mA, 50 - 60 Hz

Output: 56 V DC, 275 mA, 15.4 W

Performance class: 0

PD power range: 0.44 to 12.94 W PSE power usage: maximum: 15.4 W

Certificates: CE, UKCA, UL (Canada, US), FCC, IC, LPS,

CAN ICES-3(B)/NMB-3(B)

Territorial coverage: North America, Canada, Europe, Great Britain,

Australia/New Zealand

Items of Delivery

TouchControl 5 Monitor Control & Meter:

- Dante® based immersive monitor controller with metering.
- User customizable table-top device with 5" touch display, build-in calibrated microphone and 32 Dante®-channels for stereo, surround and immersive speaker formats
- Monitor Controller for up to 4 input and 4 output sets
- Speaker level calibration
- SPL measurement
- Bass management
- Premium metering (PPM, TP, Moving Coil)
- Loudness, SPL and LRA
- Toolbox with leveling and talkback
- Quick start guide

Order no.: 320517ND

Optional Accessories

- Ethernet Power Injector 14554, PoE tabletop device with corresponding mains cable for different regions:
 - Europe: **14554-EU** (mains cable for Europe or similar)
 - USA: **14554-US** (mains cable for USA or similar)
 - Australia: **14554-AU** (mains cable for Australia or similar)
 - UK: **14554-GB** (mains cable for United Kingdom or similar)
 - International: **14554-IN** (includes all cables)
- Metal mounting plate 1166 for mounting with 3/8" holds (e. g. gooseneck, mic stand)
